Education

MA Design Products. Royal College of Art
London, UK. 2011-2013

BA (Hons) Product Design. Central Saint Martins
London, UK. 2007-2010

Work Experience

Visiting Lecturer for Product Design & Furniture at Nottingham Trent University.

Nottingham, UK. 2017-Present

- Studio tutor for 1st year students in Product Design & Furniture, including grading of portfolio submissions.
- Design Studies tutor for Product Design students, including academic grading.
- Proposed a strategy for the development of a Materials Library and the accompanying lectures and workshops to enhance the understanding and potential of materials in Design.
- Introduced lectures from NTU specialists around prototyping, materials and innovative making techniques.

Head of Product Design & Strategy for Shake Your Power, CIC.

(www.shakeyourpower.com)

London, UK. November 2013-2017

- Designed award-winning musical instrument SPARK (London Design Awards 2014), the world's first clean energy-generating musical instrument, creating a new product category in the hardware market.
- Planned and led the Research Strategy for the SPARK project, focusing on storytelling and community engagement.
- Designed award-winning DIY SPARK educational kits (London Design Awards 2015), which merge clean energy technologies and music to provide functional products and educational materials.
- Managed a team of storytellers, illustrators and script writers to create the comic book The Adventures of Gaia the Earth Tech Warrior which focuses on sustainability and innovation.
- Created a Hack-STEM proposal for Microsoft with Ankur Anand, the

Head of Microsoft Education, focusing on using hardware data capture and visualization through the Excel plug-in Cordoba.

- Created the Product Strategy for the SPARK shaker as a Minion Toy for Universal Studios USA.
- Ran a 13 week pilot educational program with UCL Academy focusing on delivering Design Thinking and Innovation methodologies.
- Managed the Beta Testing program for the DIY SPARK kits within UK and US schools.
- Managed the partnership with the School of Entrepreneurship at Lamar University in Texas, leading the Marketing Strategy & Product Development for new Shake Your Power products.
- Represented Shake Your Power at the EU Commission in Brussels as part of the EUSEW Week 2016.
- Designed the exhibition stand for the Africa Energy Forum in Dubai, Washington & London.
- Managed the User Testing program with NGO Pratham in India, taking the DIY SPARK kits to several Indian districts.
- Managed a team of engineers to deliver technology improvements in a specific time-frame.
- Designed and developed second and third iterations of the SPARK shaker that delivered increased efficiency whilst establishing the brand aesthetic guidelines for future products.
- Managed the DFM process and liaised with our manufacturing team in China to deliver products according to the brand's identity and technological requirements.
- Managed the patent process to secure the US patent for SPARK.
- Developed a Future Product Strategy to generate more income streams through new products and services for Shake Your Power, CIC.

Designer in Residence at 19Greek Street Gallery (www.19greekstreet.co.uk)

London, UK. February- October 2014

- Developed new innovative materials using local waste.
- Designed and implemented a new waste-based business, collecting and processing glass waste to manufacture high end products for the hospitality sector.
- Designed and created a series of bespoke products for high end Hotel Library London, (<http://www.lib-rary.com/>) using their own glass waste.
- Developed the business model and brand strategy that will commercialize products made from glass waste.

Material Consultant, Researcher, Product and Furniture Designer at DiSH Design

London, UK. 2009-2014

- Designed and developed several product and furniture projects for exhibitions.
- Established innovative methodologies to generate fresh and creative content.
- Created and delivered talks to further engage the design and general public in the activities and philosophy of our studio.
- Liaised with clients and potential collaborators to establish mutual points of benefit and development.

Concept development and Logistics for Fixperts (www.fixperts.org)

London. UK. 2013

- Brompton Pitch stand at Exhibition Road.
- Led the concept generation and development of the Brompton Pitch stand for Fixperts during LDF 2013.
- Managed and created a schedule of activities where designers engaged the general public on the activities of Fixperts.
- Developed a zine where I gathered writings and visuals from some of the most prominent collaborators of Fixperts, the zine was freely distributed.
- Coordinated logistics and organized a team of volunteers that helped to run the stand during the LDF.

Designer at Bethan Gray Studio (www.bethangray.com)

London, UK. 2011

- Worked as a trend and colour researcher and 2D & 3D visualiser for Bethan Gray's furniture and products.

Material Trend Research and Development for CPHLondon

London, UK. 2011
